Re: IL0270250, BREESE

Notice of PFAS Sample Results Below Minimum Reporting Levels

Dear Municipal/Water Supply Official(s):

The purpose of this letter is to notify you of the results of analyses for Per- and Polyfluoroalkyl Substance (PFAS) in finished water samples collected by the Illinois Environmental Protection Agency (Illinois EPA) from your community water supply (CWS) at the entry point to the distribution system.

The Illinois EPA's sample analysis included a total of 18 PFAS. These contaminants were not present in your CWS at concentrations greater than or equal to the minimum reporting levels. A copy of the laboratory report is enclosed for your review.

Additional information regarding PFAS, the statewide PFAS investigation network, and the impact to public health can be found on the Illinois EPA PFAS webpage:

www2.illinois.gov/epa/topics/water-quality/pfas/Pages/pfas-statewide-investigation-network.aspx.

Illinois EPA thanks you for your participation in the collection of data for its State of Illinois PFAS investigation network. If you have any questions, please contact Michael Summers, Manager of the Groundwater Section, Division of Public Water Supplies at (217) 782-1020 or epa.pfas@illinois.gov.

Sincerely,

Michael L. Brown, Manager
Division of Public Water Supplies
